This volume comprises a series of forty-nine sigils derived from randomly-generated lottery numbers and Heinrich Cornelius Agrippa's magic square for the planet Venus, as published in his *De occulta philosophia libri tres* (*Three Books on Occult Philosophy*, ca. 1510).

It was completed on the occasion of the January 24, 2009 Lotto 6/49 draw (jackpot: c\$44.4 million). I did not win.
